

ELIMINATE
TOBACCO USE

| SUMMIT 2023

**ELIMINATE TOBACCO
USE SUMMIT 2023**

WELCOME TO THE ELIMINATE TOBACCO USE SUMMIT 2023

On behalf of the Eliminate Tobacco Use leadership, steering committee and planning teams in Missouri, New Jersey, Texas and Virginia - welcome! Our primary goal is to create tobacco-free cultures in our higher education settings and the communities in which they serve through evidence-based policies, educational programming and tobacco treatment services—all with a lens of equity, accessibility and inclusion.

Our eighth annual summit has a remarkable lineup of speakers who are experts in their fields. We know you will take away multiple ideas, strategies and/or actions to apply meaningful change in your community, agency, campus or institution. We created an action plan to jot down notes or follow up on connections made during the summit.

Check out the resources and website to enhance your summit experience:

- Use the QR code on the opposite page to view a detailed agenda, speakers' profiles and student videos
- Participate in the Twitter chat using #EliminateTobacco, #TobaccoFreeColleges or #TobaccoFreeCommunities

We hope you enjoy one of the state summits hosted by our partners in Missouri, New Jersey, Texas and Virginia. Stay connected with us throughout the year by visiting EliminateTobaccoUse.org where you can find free resources and customizable material for your campus and can join a quarterly webinar with experts in tobacco control. Thank you for joining us!
